Price: \$32

Aimee Mann

Coach House

Stacy Davies

Singer-songwriter Aimee Mann is one of those rare breeds of artist who exist in the twilight plane of the music world: Unknown by mainstream corporate pop lovers, she is worshipped by people who look for more than sappy love stories or sexual innuendos in their tunes, and it's those discerning listeners who've kept her afloat for 25 years. (The Grammy and Oscar nods didn't hurt, either.) Like Kate Bush, Tori Amos, Lucinda Williams—and the godmother of them all, Joni Mitchell—Mann is a poet of extraordinary measure who can marry the most somber lyrics to the most riveting melody and give birth to one of the smartest comi-tragic stories on the planet. Don't miss your chance to see it happen live—it's just like being the delivery room, but with more emotional mess.
